Professional Summary

Backend Developer with 2+ years of experience building scalable enterprise applications and reusable software components. Passionate about Artificial Intelligence, cloud technologies, and continuous learning, with a strong interest in developing innovative and future-ready software solutions.

Work Experience

Infosys Limited

Specialist Programmer | July 2024 – Present

- Successfully completed intensive training at the Infosys Global Education Center, Mysore.
- Built and maintained reusable messaging frameworks for Solace and AWS SQS, implementing publisher and consumer components to facilitate reliable event-driven communication and queue-based message processing.
- Developed and maintained a reusable OAuth2 Resource Server library to standardize JWT-based authentication and authorization across enterprise microservices, ensuring secure access to protected REST APIs.
- Designed and developed enterprise-grade backend applications using Spring Boot, RESTful APIs, and microservices architecture, while contributing to CI/CD automation, code quality improvements.
- Developed, maintained, and upgraded shared libraries, software components and reusable templates to support the latest Spring Boot and Spring Framework releases.

Skills

Programming Languages: Java • Python • SQL.

Development Tools: Git • GitLab • Maven • IntelliJ IDEA • VS Code • Linux

Skill Tags: Backend Developer, AI Builder, Cloud Professional

Soft skills: Problem Solving, Ownership, Collaboration, Critical Thinking, Continuous Learning.

Projects

Classification of Medicinal Leaves using SVM

[Click me](#) | 2023

- Developed a system to identify medicinal leaves using computer vision and machine learning, accurately classifying three plant species named as Tulsi, Neem and Peepal.
- Approved and Published in: 2023 World Conference on Communication & Computing (WCONF).

Detection of Missing Persons Using Mobile App

[Click me](#) | 2022

- Developed a user-friendly mobile app that serves as a bridge between law enforcement and the public to facilitate the search for missing persons, enabling efficient and accurate detection.
- Approved and Published in: 2023, 2nd International Conference for Innovation in Technology (INOCON).

Certifications

- Microsoft Certified: Azure Fundamentals [🔗](#)
- AWS Cloud Foundations [🔗](#)

Associate Cloud Engineer - Google [🔗](#)
Gemini Enterprise Agent Development [🔗](#)

Awards and Honors

- Selected as an **NSF Scholarship** recipient in recognition of exceptional service and dedication to Seva. 2024
- Secured the **Global Rank 2k** in Shaastra Programming Contest Organized by CodeChef. [🔗](#) 2023
- Selected as a **Google Developer Student Club** core team member for the Android Development. [🔗](#) 2022
- Won the **Swags from Google Cloud Facilitator Program** by completing the 30 Quest & 15 Skill Badges. [🔗](#) 2022
- Secured Ecet **Rank 49**, showcasing expertise in core subjects in computer engineering. [🔗](#) 2021

Education

VR Siddhartha Engineering College, Vijayawada

- B.Tech in Computer Science and Engineering CGPA: **8.18** / 10.0 2021 - 2024
